

# NWAudit-Manual

This software is designed to compliment *NWAudit-Gaming*. It replaces the need for Whiz/Crank machines or hand written slips. Instead, you create the form electronically. It is laser printed on your water marked paper stock. The system helps you design the form for your casino, including your logo. Use it for:

- Slot jackpot/fills
- Table credit/fills
- W2Gs
- Markers
- Checks

It is a real time saver because you don't have to track controlled documents in Accounting. Pre-loaded data fields speed things up, too. You verify amounts, machine and table numbers before printing. If a mistake occurs, you have the ability to void and reprint manual slips.

You'll be able to track all forms created for the gaming period and interface the forms and data to *NWAudit-Gaming*. If you have an interface to your host system, you can also upload data to that without keypunching and the associated errors.

The screenshot shows a software window titled "Win - Manual Jackpot". The form contains the following fields and values:

Ticket #	Date	
2000000002	04/26/05

At the bottom of the form are two buttons: "Save/Print Ticket" and "Cancel".
