SYNTRON WHISPERDEK JOGGER—FMC

Syntron WhisperDek Jogger

Key Features

Try the new Syntron WhisperDek paper joggers on for size. WhisperDek's special neoprene surface absorbs operating noise, so you can align and aerate checks, statement, receipts... an mailing materials with a lot less racket.

- **Model J-50-B with 4 or 6 pocket tile rack...**
 - Features a 4 or 6 pocket hardwood maple rack mounted at a 45 degree angle. Each pocket is 4-3/8" wide.
 - Excellent for aligning checks, tab cards, time and payroll cards.
 - Can be used to increase the capacity of sorters, readers and other date processing machines.
- **Model TJ-2-B with 8 or 12 pocket tile rack...**
 - is equipped with 8 or 12 pocket racks to increase the efficiency of modern, high-speed sorters by reducing the "jam rate" of checks and tab cards.
 - When equipped with the 12-pocket rack, this jogger can align up to 6,000 pieces at one time, depending upon the stack thickness.
